SEE WHAT PEOPLE ARE SAYING:

EnCi Photography did such a great job taking pictures at my wedding! She was so amazing, for most of the day I almost forgot she was there! Sonya made sure I was comfortable and knew exactly what to expect the day of the wedding. I knew I didn't have to worry about missing those special moments behind the scened all the way to our first dance!

-Sarah S.

I was a little worried at first. I've had photographers before who've produced low quality or blurry photos during the most important portions of the event! But when I saw our pictures come out for our wedding, I was so impressed and relieved that the best moments of our wedding were captured. If you want a great photographer who's always thinking on her feet and ready to capture the best shots, Sonya is your gal! Highly recommend!
